StyleLite®

StyleLite® High Gloss Panels are the superior choice for creating stunning, modern interior spaces.

StyleLite delivers a superior appearance to high pressure laminate, melamine, paint, PVC and other thermofoil faced panels. StyleLite offers cabinet, closet and store fixture manufacturers, millworkers, furniture makers and the interior design industry a high gloss solution that is both luxurious and affordable.

EGR manufactures StyleLite high gloss acrylic-capped ABS sheet using world class co-extrusion technology, and then bonds it to various substrates using a very thin layer of high performance polyurethane adhesive. The finished panel is supplied ready to

fabricate and protected during manufacture and installation by a removable clear peel coat. Matching edge tapes for use with both hot melt glue and fusion edge banders are also available. Creating decorative elements including curves and wide edges is easy using our matching 1mm thick StyleLite laminate.

StyleLite High Gloss Panels are manufactured to stringent internationally recognized quality standards and will suit any residential or commercial project where a ripple free, easy to maintain high gloss finish is desired.

10 Year Indoor Warranty*

Superior Features

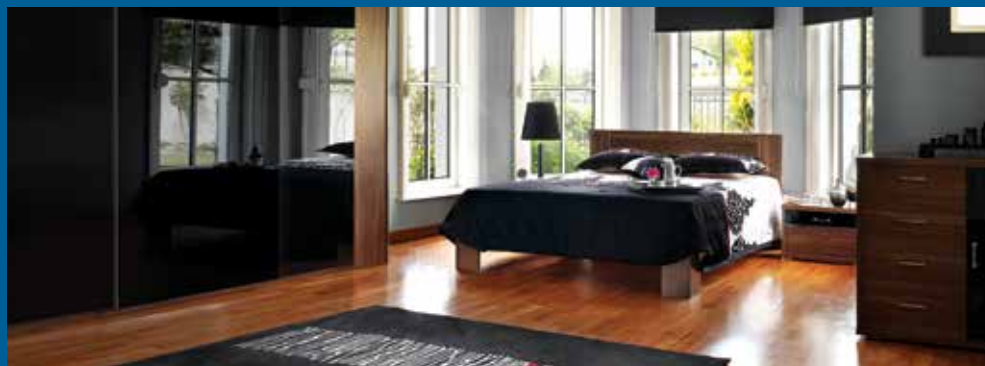

Create stunning, modern interior spaces with StyleLite:

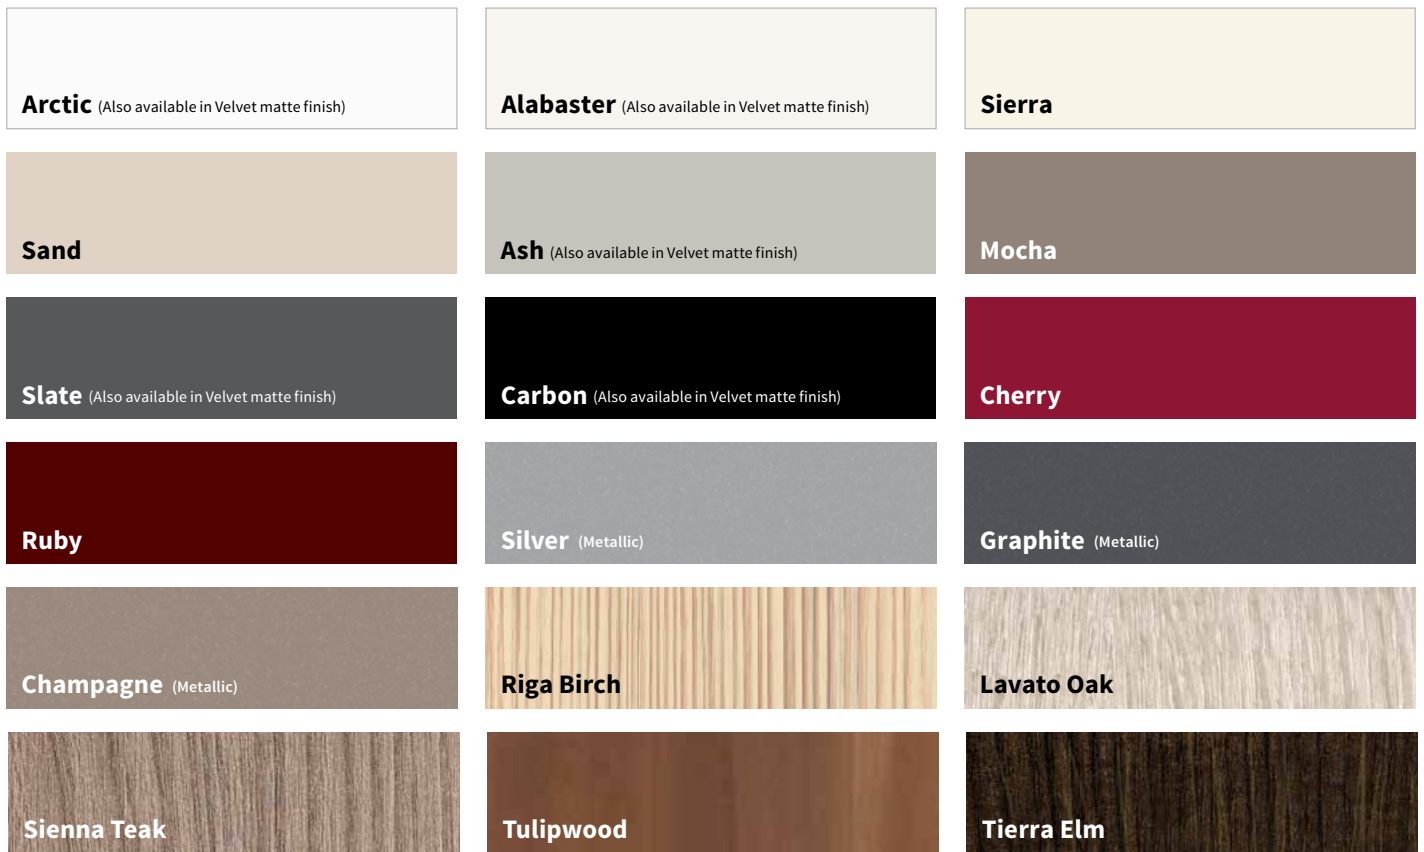

- ▶ Ultra high gloss ripple-free surface
- ▶ Perfectly balanced panels
- ▶ Superior panel workability
- ▶ UV & color change protected
- ▶ 10 Year Indoor Warranty*
- ▶ Repairable surface that won't chip, crack, peel, flake or delaminate

Applications

StyleLite is ideal for a wide range of indoor decorative vertical surfaces:

- ▶ Kitchen, laundry & vanity cabinetry
- ▶ Commercial cabinetry and store fixtures
- ▶ Closets & passageway doors
- ▶ RV & camper wall linings and cabinetry

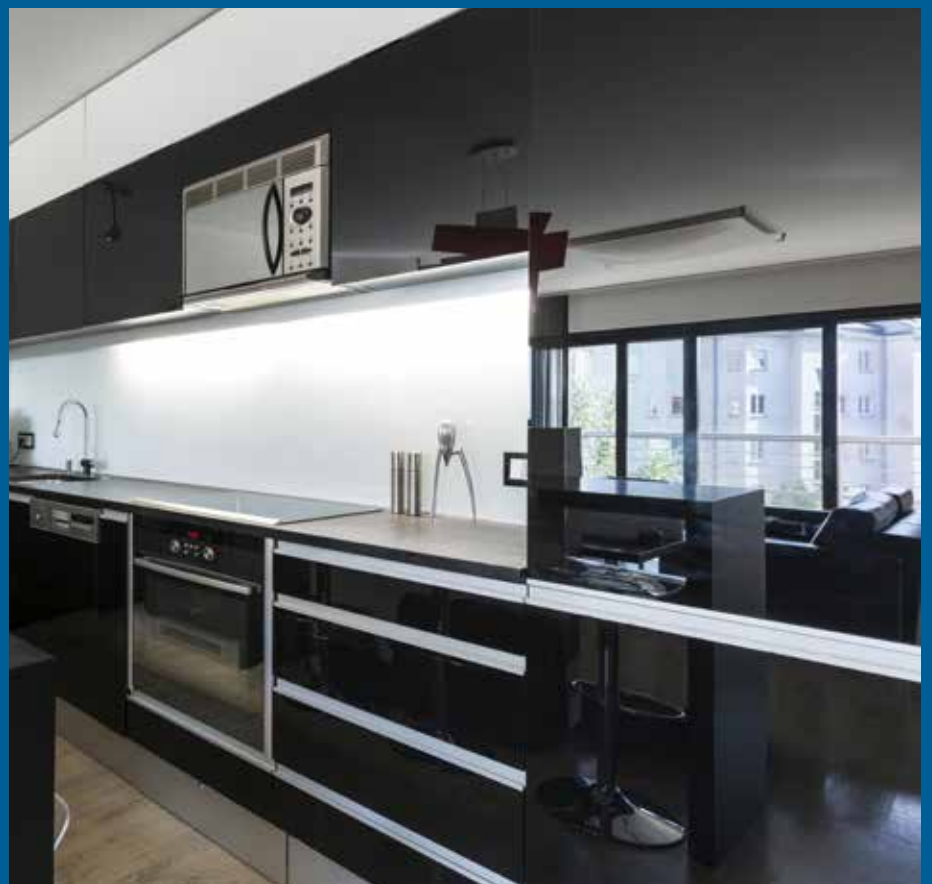

The colors shown are depictions only and are likely to vary from actual colors. Color selection should be made based on viewing physical StyleLite samples.

Environmentally Sustainable

StyleLite offers significant environmental advantages compared with other high gloss panels.

No Volatile Organic Compounds (VOCs) are produced in the manufacturing process, unlike spray painting or lacquered gloss. StyleLite panels are an inert material, and do not release any emissions to the environment during manufacture or use.

None of the color pigments used in StyleLite contain heavy metals, such as lead or cadmium. StyleLite sheet is also recyclable – making it the best high gloss choice for modern eco-friendly interiors.

StyleLite® Panel Properties and Performance

Properties	Specification	Method
Gloss Level	> 90%	Viewed at 60°
Mass - MR MDF CARB2	2.8lb/ft ² (91lb per panel)	3/4" nominal
Mass - CARB 2 Plywood	1.6lb/ft ² (50lb per panel)	5/8" nominal
Surface Hardness	3H	Pencil Hardness
Heat Distortion Temperature	185°F	ASTM D648
Service Temperature	158°F	Continuous
Stain Resistance	No effect	
Steam Resistance	No change after 30 min	
Dry Heat Resistance	No loss of gloss or color change	
Bond Strength	100% Fiber Split	
Backing	StyleLite High Gloss as standard (Textured Backing Sheet available as an option)	

StyleLite Edge Tape

A near seamless appearance can be achieved using StyleLite high gloss ABS color matched edge tape, which is available for use with glue and fusion edge banders. Many other contrasting and dual color tapes can be used to achieve a sophisticated and contemporary style.

StyleLite Laminate

StyleLite 1mm laminate is also available to complement and contrast StyleLite laminated panels. Whether it's tantalizing curves, seamless corners or wide edges, with StyleLite laminate creating virtually any special design element is possible and limited only by imagination.

Availability

StyleLite High Gloss Panels, matching edge tape and StyleLite laminate are available from selected specialist distributors nationally.
