

TAKING THE BEST SOMEWHERE NEW – OUTSIDE

Introducing StyleLite® Multi-Purpose Panels – a new highly water resistant cabinetry solution for covered patios, wet areas and marine applications.

Introducing StyleLite Multi-Purpose Panels (MPP) – combining the latest technology in substrates with our flawless StyleLite finish.

After extensive development, EGR has succeeded in creating an advanced new highly water resistant substrate material and we've laminated our luxury StyleLite Sheet to this new Wood Infused PVC substrate to create StyleLite Multi-Purpose Panels.

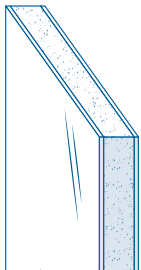

This combination brings the best material for contemporary design into a whole new arena. StyleLite Multi-Purpose Panels are highly water resistant and UV protected, perfect for cabinetry and furniture used in covered patios, alfresco areas, flood-prone locations and environments highly susceptible to humidity and moisture.

StyleLite – the material for modern design, for both indoors and covered outdoor areas.

Multi-Purpose Panels offer the following features:

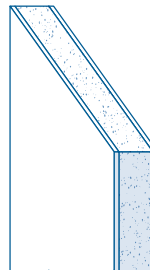

- ▶ Highly water resistant
- ▶ >20% lighter than MDF
- ▶ Resistant to warpage
- ▶ High levels of UV stability
- ▶ Mould and vermin proof
- ▶ Fully recyclable by mechanical means
- ▶ 7 Year Warranty
- ▶ Easy fabrication
- ▶ Thermoformable
- ▶ Repairable
- ▶ Resists chipping & cracking

StyleLite Multi-Purpose Panels

StyleLite Multi-Purpose Panels are laminated two-sided with StyleLite Sheet, resulting in a finished panel thickness of nominal 3/4". Both preprimed and heat activated color matched edge bands are available.

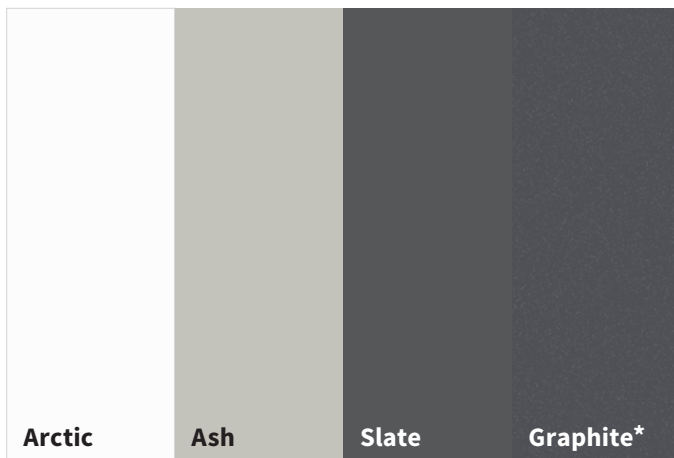

Multi-Purpose Carcass

Multi-Purpose Carcass is ideal for flood prone and wet areas. Supplied two-sided with matte, textured, soft white finish.

Product	Substrate	Panel Size	Weight	Finish
Multi-Purpose Panels	Wood Infused PVC	Nominal 3/4" x 48 1/2" x 97"	2.3 lbs/sf	Stylelite 2S
Multi-Purpose Carcass	Wood Infused PVC	Nominal 1 1/16" x 48 1/2" x 97"	2.2 lbs/sf	ABS 2S
